Annex Quicktime plugin setup

Annex is a webbased annotation viewer

Requirements:
- The quicktime plugin (at least **version 7**)
- A web browser (Firefox, safari, Internet Explorer)

Please setup the quicktime plugin as follows:

- Open the quicktime player.
- Select **Edit > Preferences > Quicktime preferences**
- Select the **Streaming** tab
- Make sure the option Speed is set to **Automatic** (see figure 1)
- Now go to the **Advanced** tab
- Select **Custom** for the Transport Setup, this will open up a new window
- Transport Protocol should be **HTTP** and Port ID **80** (see figure 2)
